Edwin Kolsteeg CEO Agri & Dairy Farming at SKELEX

The Hague, 01.07.2025 SKELEX, developer of innovative ergonomic support solutions, proudly announces the start of **Edwin Kolsteeg** as **Director Agri & Dairy Farming**. In this new role, Kolsteeg will lead the international introduction and strategic market development of the company's cutting-edge product portfolio, with a strong focus on the global dairy farming sector.

"We are thrilled to welcome Edwin Kolsteeg to the SKELEX leadership team. His extensive experience and proven track record in the international agri and dairy farming sector make him the ideal person to drive growth in this strategic market. With our flagship product, SKELEX 360, we offer the world's first ergonomic support tool designed specifically to reduce the physical strain of daily milking tasks. This innovation directly enhances ergonomics, working conditions, and operational efficiency on dairy farms."

Edwin Kolsteeg, new Director Agri & Dairy Farming, adds:

"I am excited to leverage my international network and understanding of the dairy industry to bring these groundbreaking innovations to market. With many years of experience across the full agricultural value chain – from primary production to processing and distribution I know where the sector's real challenges lie and how SKELEX can help address them."

"I truly look forward to working with partners across the industry let's shape the future of dairy farming together. From traditional dairy farmers to Happy Milkers."
